

Recycler View Checklist

1. Add drawables
2. Add gradle dependency : `implementation 'com.android.support:recyclerview-v7:27.1.1'`
3. Add Layouts(recycler view in main activity and rv_eachrow_layout.xml)
4. Add Model (RvData.java)
5. Create RvHolder.java
6. Create RvAdapter extending RecyclerView.Adapter<RvHoder> {}.java
 - Pass ArrayList<Rvdata> in constructor
 - Return rvHolderObject in OnCreateView(){}
 - **Bind the views(present in rvHolderObject) and data for each row(present in ArrayList in the adapter) in onBindView(...){}**
 - Return total rows in getItem()
7. Create Sample DataArray in MainActivity . Use it to create RvAdapter's Object(i.e, rvAdp)
8. Create RecyclerViews Object (rvMain) in main Activity.
9. rvMain.setAdapter(rvAdp)
10. rvMain.setLayoutManager(new LinearLayoutManager(this))

- Checkboxes,
- Radio buttons
- Switches
- Progress Bar
